Louis Atkin

Studying Medicine

Profile

I left CGS in 2024 after studying Biology, Chemistry and Classics, and I am now in my second year of a five-year Medicine degree at the University of Manchester.

What I have learnt so far

Healthcare is fundamentally a team effort: every professional depends on others, and no one can deliver effective care alone.

Advice to take away

Be prepared for your interviews! Make sure you give yourself time to practise, reflect and then present yourself with confidence.

Education

Healing School - 2017-2022

Caistor Grammar School 2022- 2024

Medicine Degree-University of Manchester

Some of the Careers in Medicine
