01 Start A Bill From Till Screen

Hello, today I'm going to show you how to start a bill for a client from the till screen. When we're on the till screen, we need to go to the In Salon Clients section on the left hand side and click Choose a Client here. This will take us to a page where we can search for a client. I can type in my client's name, find the client I'm after, and click Start a Bill here. This will add them to the In on Clients list and allow me to add a service, sell retail, sell a voucher, or credit their account.
