

Redeem Points On A Bill

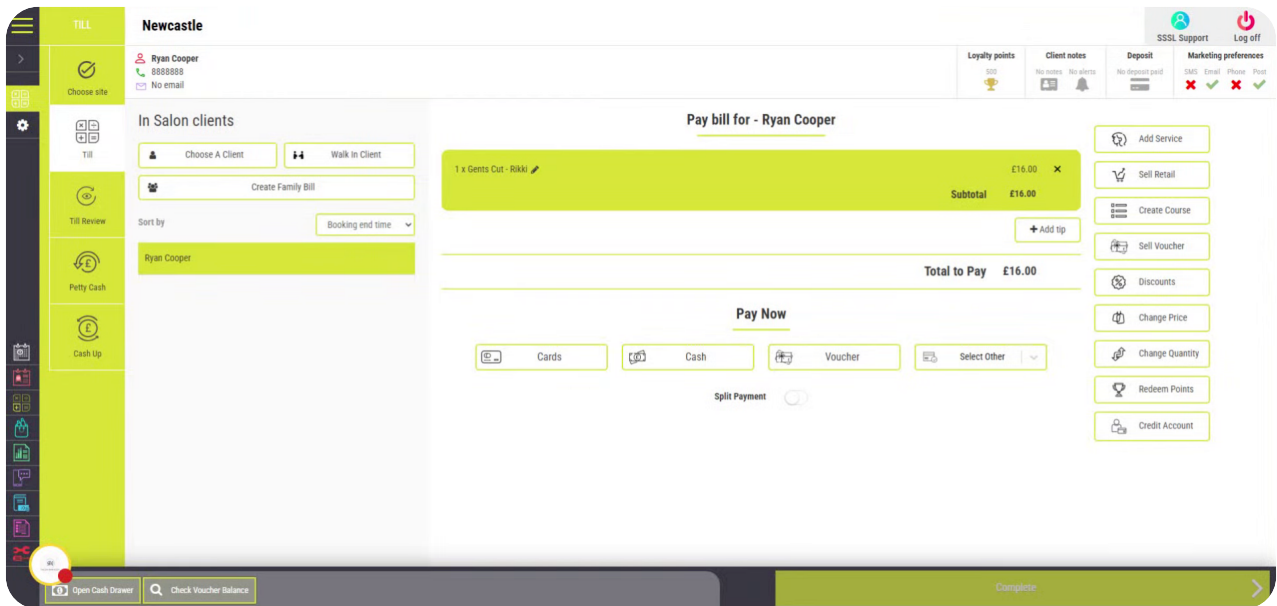

Powered by [guidde](#)

SALON MANAGER

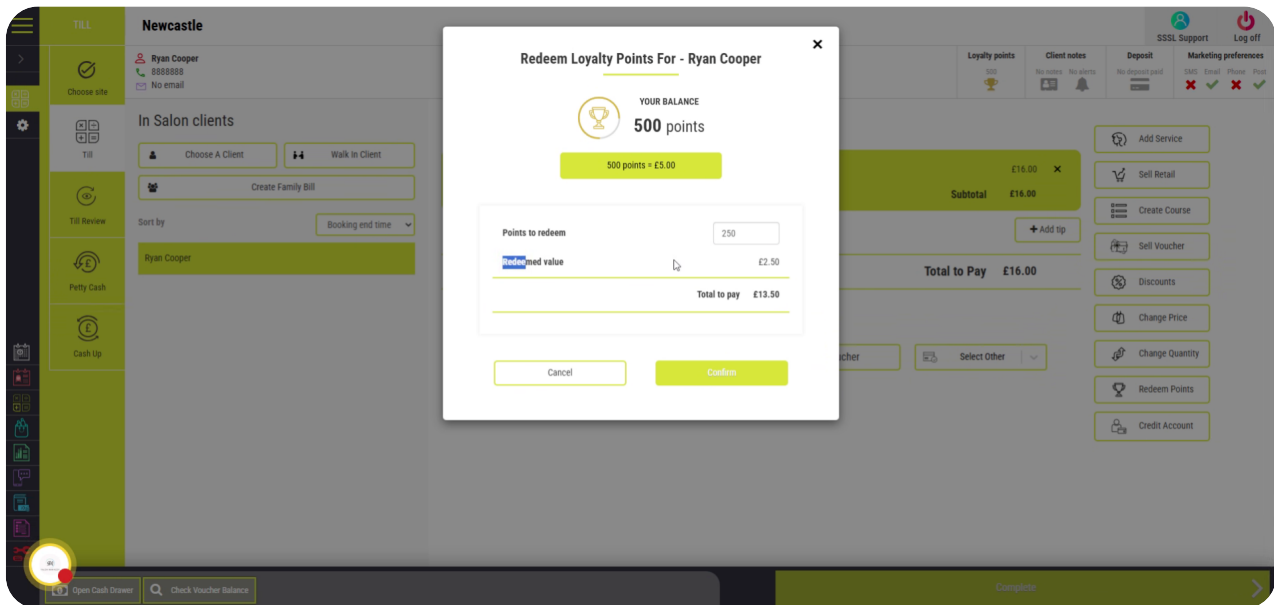

01 Open Redeem Points Menu

Hello, today I'm going to show you how to redeem points on a bill in Salon Manager. Once you've found the bill that you wish to redeem the points on, you just need to go to redeem points on the right hand side. This will open up a new menu, giving the client's total point balance and what that equals. We have a section where we're able to put the amount of points that they wish to redeem.

02 Confirm Points Redemption

The value will be underneath the redeemed points, and then it will tell you the remaining left to pay on the bill. Once you've done that, click confirm.
