

Add Tips To Bills

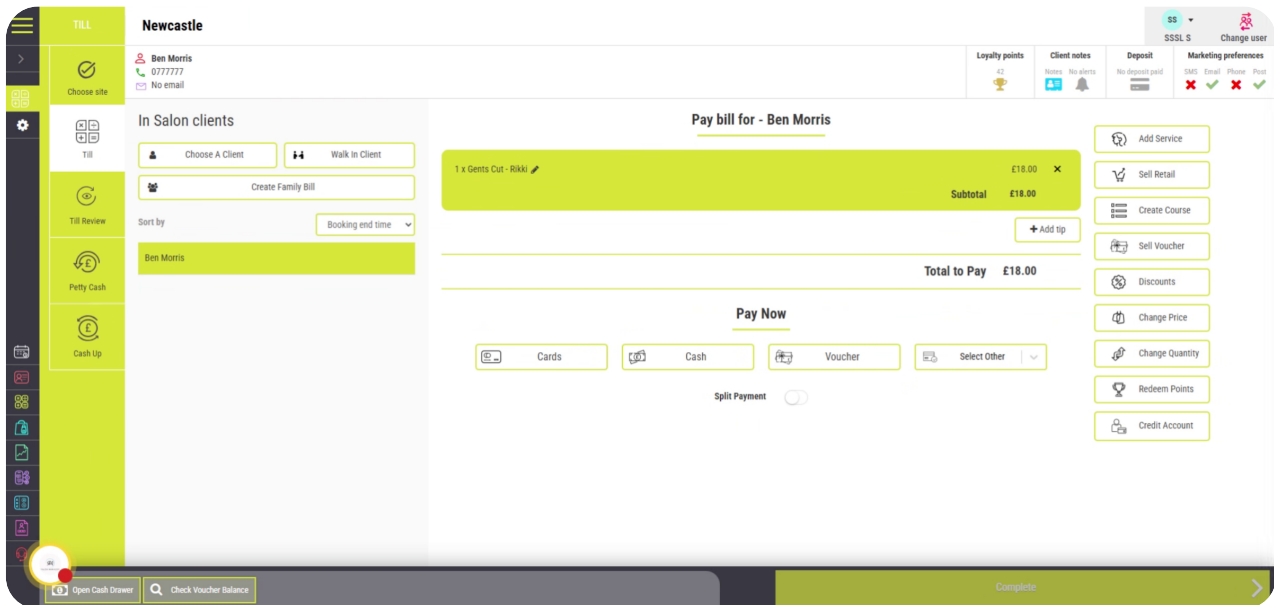

Powered by [guidde](#)

SALON MANAGER

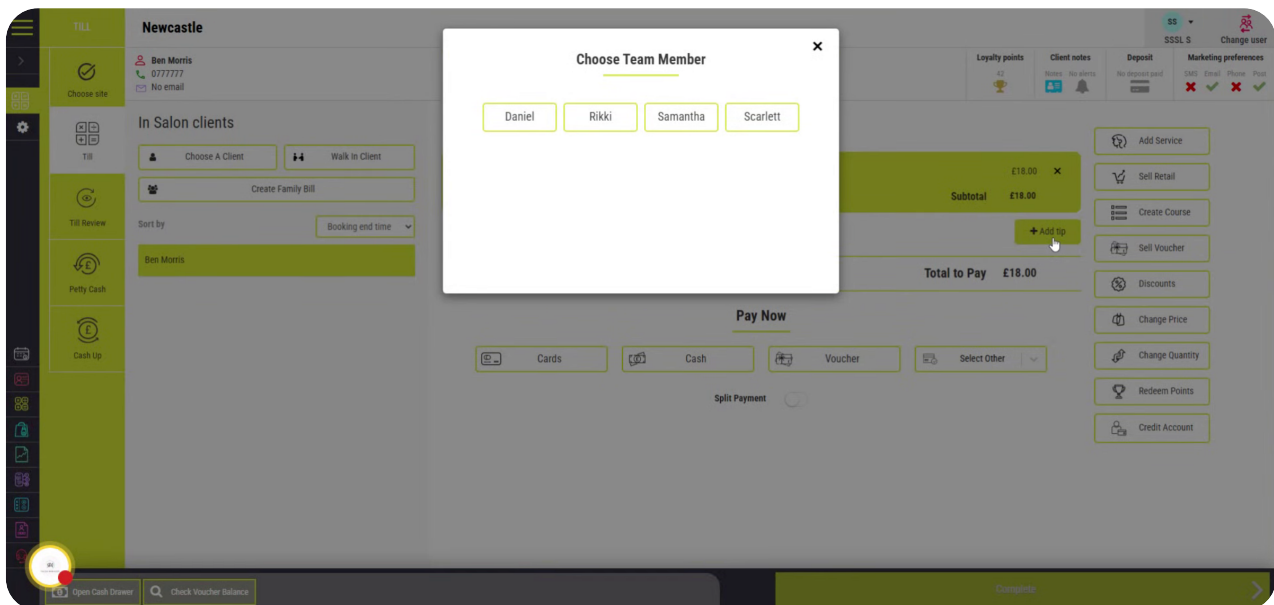

01 Add A Tip To Bill

Hello, today I'm going to show you how to add a tip to a bill in Salon Manager. Once you have the bill you wish to add the tip to, you just need to click Add Tip under the bill items.

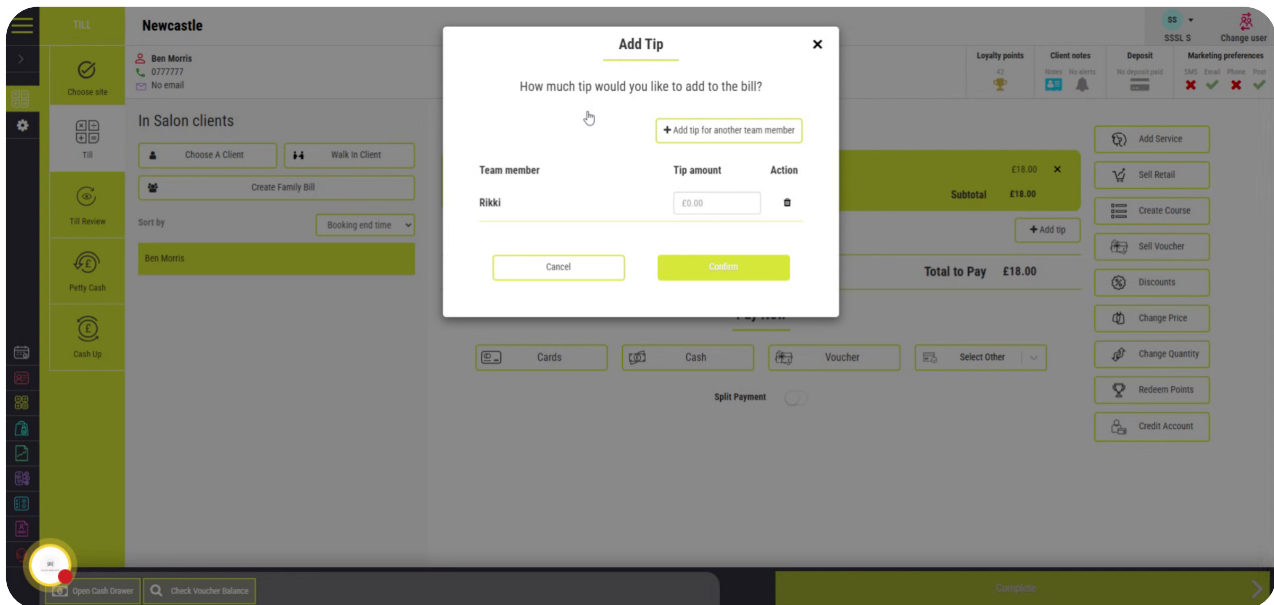

02 Select Team Member

A menu will appear and give you the option to select the team member the tip is for.

03 Enter Tip Amount And Confirm

Once you've selected the team member, a new box will appear giving you the option to enter the tip amount. Once you've entered that, you can click Confirm and the tip will now appear on the bill.
