SALON MANAGER

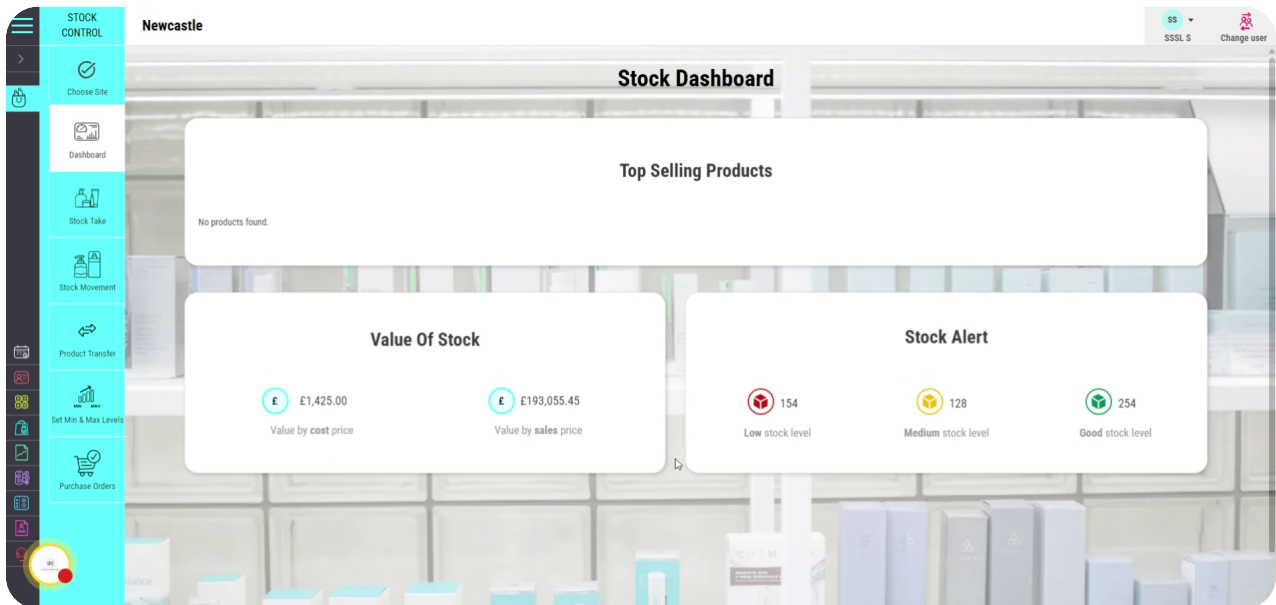

01 Introduction To Stock Movement

Hello, today I'm going to show you how to do a stock movement in Salon Manager.

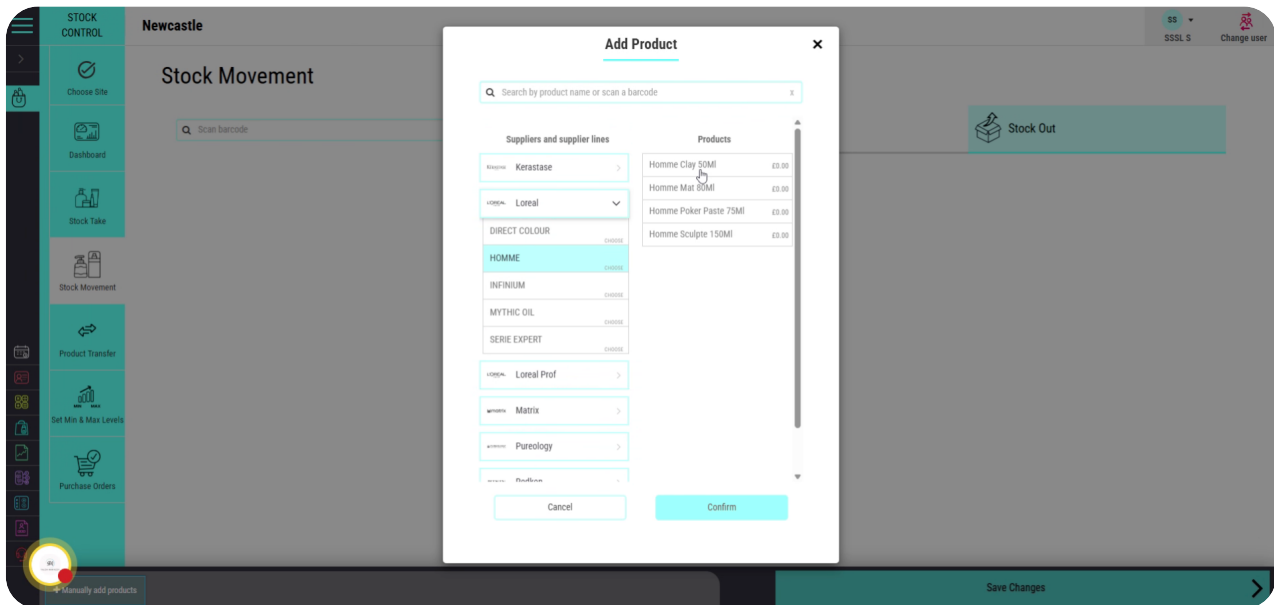

02 Navigate To Stock Movement Menu

From the stock module, navigate to the left-hand side menu and click stock movement. On this page, you can choose to put stock in or stock out at the top right, scan barcodes, or add products manually.

03 Select Products For Services

Select the services as the products that you wish to add. Once you've selected the products, click confirm.

04 Mark Products For Stock Out

This will give you the list of products, where you can mark how many you want to move, as highlighted here.

The screenshot displays the 'Stock Movement' screen in the Newcastle system. The interface includes a sidebar with navigation options: STOCK CONTROL, Choose Site, Dashboard, Stock Take, Stock Movement, Product Transfer, Set Min & Max Levels, and Purchase Orders. The main area shows a search bar for 'Scan barcode' and two tabs: 'Stock In' and 'Stock Out'. Below the tabs is a table with the following data:

Product	Stock Out Quantity	
HD Game Clay 50MI	1	☒
Homme Mat 80MI	1	☒
Homme Poker Paste 75MI	1	☒

At the bottom of the screen, there is a 'Manually add products' button and a 'Save Changes' button.

05 Save Stock Movement Changes

Once you're happy with the amount, hit save changes and confirm.

The screenshot shows the 'Stock Movement' interface for the 'Newcastle' system. The interface includes a sidebar with navigation options: STOCK CONTROL, Choose Site, Dashboard, Stock Take, Stock Movement (selected), Product Transfer, Set Min & Max Levels, and Purchase Orders. The main area is titled 'Stock Movement' and features a search bar labeled 'Scan barcode'. Below the search bar, there are two tabs: 'Stock In' and 'Stock Out'. The 'Stock Out' tab is active, displaying a table with the following data:

Product	Stock Out Quantity	
Homme Clay 50MI	1	X
Homme Mat 80MI	1	X
Homme Poker Paste 75MI	1	X

At the bottom of the interface, there is a 'Save Changes' button and a 'Manually add products' link.
