We understand that mains water is available in the locality and the purchasers are to make their own enquiries as to the availability.

Mains Electricity is available within the locality, however, a larger transformer will be required to be installed at the cost of the developer in the region of £20,000+VAT. The vendor wishes to discuss the capacity of the transformer with the purchaser prior to solicitors being formally instructed.

Mains drainage is available within the locality, however, the mains sewerage pipe must be extended to the frontage of the plots which the purchaser will be responsible for. This is to be undertaken at the time and expense of the purchaser and within 6 months of completion.

The purchaser is to install 1No. Grey BT duct, 1No. duct with 63mm blue acanthine waterpipe (connected and capped) and 1No. spare 6" duct shall be installed under the roadway to the retained land as edged blue on the attached plan.

The vendor reserves the right to connect into any of the above services.
